

SOHAM DESHMUKH

AI Engineer · Computer Vision · LLM Applications · Deep Learning · Agentic AI

Chhatrapati SambhajiNagar, Maharashtra, India | sohamdeshmukh801@gmail.com | +91-9511711961 | github.com/Soham801 | linkedin.com/in/soham-deshmukh-95aa76288

PROFESSIONAL SUMMARY

Results-driven AI Engineer with hands-on experience building Computer Vision models, LLM-powered applications, and agentic AI systems. Proven ability to ship production-grade AI solutions, from deep learning pipelines to real-time inference backends. Passionate about applied AI research, generative AI, and building intelligent systems that solve real-world problems at scale. Experienced in client acquisition, deployment strategy, and translating AI research into business impact.

EXPERIENCE

AI Research Analyst - BuildAI

Mar 2026 – May 2026

- Conducted iterative AI research, model experimentation, and hyperparameter optimization workflows; improved inference pipeline efficiency and contributed to architecture design decisions.
- Drove AI-powered operational coordination across 4 companies with 100+ person teams each, implementing workflow automation and AI-driven process improvements that reduced manual overhead.
- Supported client acquisition by demonstrating AI system capabilities to stakeholders, translating technical results into business-relevant outcomes.

Flutter Developer Intern - MeMatdar Developers

Oct 2025 – Jan 2026

- Built production-ready cross-platform mobile applications using Flutter and clean architecture patterns.
- Integrated Firebase Authentication and Firestore for real-time data sync.
- Delivered sprint features 20% ahead of schedule through Agile collaboration, rapid prototyping, and proactive debugging.

PROJECTS

AI-Based Cheat Detection System | Python · OpenCV · Deep Learning · Streamlit · Computer Vision

- Built a real-time classroom monitoring system using Computer Vision and deep learning to detect suspicious behavioral patterns with 90%+ accuracy across continuous video streams.
- github.com/Soham801/AI-cheat-detector

AI-Powered RAG Notes Assistant | Python · FastAPI · Qdrant · Gemini · Streamlit · Sentence Transformers

- Developed an end-to-end Retrieval-Augmented Generation (RAG) system enabling users to interact with multiple PDF documents using natural language queries.
- github.com/Soham801/RAG-Notes-Assistant

AI Automation Discord Bot | Python · FastAPI · API Integration · Agentic Automation

- Engineered a modular Discord automation bot with event-driven architecture, multi-service API integration, and agentic task routing—processing 1,000+ automated commands daily.
- github.com/Soham801/Discord-bot

Intelligent-Form-AutoFiller | Python · FastAPI · OCR · LLM · Document AI · PDF Processing

- Built an intelligent document processing pipeline that automatically extracts structured data from documents and populates forms using OCR and AI.
- github.com/Soham801/Intelligent-Form-AutoFiller

TECHNICAL SKILLS

Programming: Python · Dart · C++

Frameworks: PyTorch · OpenCV · Hugging Face · FastAPI · Flask

AI / ML: Computer Vision · Langchain · RAG · Vector Database · Neural Networks · LLM Applications · Agentic AI

Mobile / Cloud: Flutter · Firebase · Supabase · Google Cloud · REST APIs

EDUCATION

Bachelor of Science (Hons.) in Computer Science

Jun 2023 – Jun 2027

Dr. G.Y. Pathrikar College of CS & IT, MGM University - Chhatrapati SambhajiNagar, Maharashtra

ACHIEVEMENTS & RECOGNITION

- VJ Hackathon - VNRVJIEET Hyderabad 2025: Selected among Top 32 teams nationwide from 5,000+ participating teams; built a functional technical prototype in 24 hours under evaluation by industry experts.
- InnovateYou 24-Hour Hackathon - Pune 2025: Led team project to demo-ready stage; recognized by judges for real-world applicability and rapid execution.
- Google Developer Group Workshop - Hyderabad, Mar 2025: Completed hands-on training in AI, Android, and Cloud technologies led by industry practitioners.
